

Digisist™

FOR CORPORATE EVENTS

DIGITAL TOUCH DISPLAY SOLUTIONS FOR EFFECTIVE AND INTERACTIVE COMMUNICATION

Digisist™ is a new and unique solution, created by Digital Display Technologies, tailor made specifically for the corporate & events industry.

Offering the Digisist™ for your Corporate Event

The Digisist™ offers new ways in which event planners and organisers can communicate and interact with guests.

While it's not always possible to engage with every single guest present, the Digisist™ makes it possible for them to feel part and parcel of your event.

The Digisist™ offers the following features and functionality for corporate events:

- **Event Program / Schedule:** The Digisist™ can display the event's program line-up or schedule, along with time lines, tea breaks, etc.
- **Special Event Content:** Whether you are hosting a product launch, participating at an exhibition or having an internal event, the Digisist™ can be configured to display tailor made information about your event / product / topic or theme.
- **Guest Speaker Profiles:** People don't always know the keynote or guest speakers who participate at your event. The Digisist™ proves to be very effective in displaying the speakers photo, profile as well as contact details. If needed, the Digisist™ can also include a contact form that will allow guests to post questions - to which the guest speaker can respond (via email) after the event.
- **Photo Galleries and Videos:** Display videos, portfolios, reports, photo galleries, and more.
- **Table Seating and Food Menu:** A popular feature is the digital table seating and menu, which doesn't only save you time and money but you also have the ability to make last minute changes and updates which accommodates those guests who RSVP'd at the last minute.
- **Satisfaction and Feedback Survey:** It is always good to measure the effectiveness of one's event, be it the venue, the food, the topic of discussion or perhaps event to take a vote on a certain topic of interest. The Digisist™, can cater for this requirement.
- **Competition Entries:** Collect competition entries easily if you are running a competition. Entries can be compiled at the same, allowing you to take a draw in less than a few hours.
- **Event Sponsors:** If your event is sponsored, you can now have a section which showcases the logos and profiles of the sponsors who made the event possible.
- **Runner Ups for Special Awards:** Should you be hosting an awards event, you can now showcase and display the runner-ups for the various awards categories.
- **Vote of Thanks:** Nothing makes your guests feel more special than being appreciated! Take advantage of the opportunity to thank everyone who made your day special, by thanking them openly on the Digisist™.
- **Social Media Integration:** Now you can have a collage of all photos taken of / at your event displayed on the Digisist™.

Book or Order Your Digisist™ TODAY

Don't delay and secure your Digisist™ today. Whether you are looking to hire it for one event or purchase it for all your future events. We offer a partnership program, which allows venues to resell the solution to its guests or integrate the solution into their existing packages and product offering.
